**DECLARATION OF RIGHTS OF THE JEWISH PEOPLE  
THROUGHOUT THE LAND OF ISRAEL AND PRACTICAL  
PREPARATIONS FOR PREVENTING THE UPROOTING OF  
RESIDENTS**

Excerpts from the founding statement of principles

According to widely available public information, according to statements issued by our enemies and as has been further proven by the political reality of recent years (for example: the freeze on Jewish building in the Land of Israel, the destruction of many small communities, the establishment of a “Palestinian” city, etc.), the administration in Israel is preparing to hand over large parts of the Homeland to our enemies, to deport the Jewish residents and to abandon the Jewish communities...

It has been proven many times in the past that withdrawal does not bring any form of peace but rather leads directly to an increase in terror and killing, bereavement, more widows and orphans, destruction and devastation. The fact is that every concession of our land has only led to a more serious breach of the safety and security of the people of Zion. And that is in addition to the damage that has been psychologically, physically, and economically to the thousands of residents already forcibly removed and to their families...

- Based upon God’s explicit promise in the Bible, as given to the forefathers of our nation and to the people of Israel, the people of Israel are Sovereign upon the entire Land of Israel, and, above all, in the holy city of Jerusalem - **This right is eternal** and non-negotiable. The Sovereignty of the People of Israel is not subject to any foreign entity.

- Based upon international law, including, but not limited to, the San Remo Resolution of 1920 and the mandate over the Land of Israel that followed— as well as by virtue of the fact that the People of Israel are the original indigenous “natives” of this land, the Sovereignty of the People of Israel is not subject to any foreign entity.

In the event that any area is abandoned by the Israeli government, the Jewish residents will remain in place and remain the Sovereign owners of that land, exercising lawful precedence over any other People pretending to a political identity in the Land of Israel.

The Jewish communities residing in all parts of the Land of Israel, particularly in the eastern part of Jerusalem, are Sovereign upon their Land.

The government and the Knesset of Israel are not vested with the authority to take action against individuals who are lawful residents of the Land and are not empowered to carry out policy opposed to the rights of the Jewish people in the Land of Israel. Any entity that violates these rights is to be regarded as a foreign agent in conflict with the Community of Israel in the Land of Israel ...

Anyone who presumes to speak with the enemy in the name of the Jewish residents, in order to force them out of their homes, to deport them, or to take any action – violent or otherwise – for that purpose, is acting without authority and is subject to such consequence as may result from such unlawful actions, be it in contravention of human law or of Divine Law.

In view of the fact that the residents are determined **to remain in their places of residence, regardless of the consequences**, deploying the security forces against them may bring about a tragic rift in fabric of the nation as well as additional negative results which cannot be foreseen.

The residents and citizens of Judea, Samaria, and Benjamin call upon the government and upon the Knesset to cease all negotiations that are based on the principle of “pieces of the Holy Land in exchange for peace”... to allow the Jews to stay firmly rooted in their land without obstructing the normal course of their lives, and to protect their safety and welfare.

The uprooting of Jews from Gush Katif was **a crime that will not be repeated**, since in the event of any unlawful government decision, the Jewish residents are planning to resist any attempt to uproot them from their homes or to abandon them to the enemy using every legitimate means available. The Sovereign People of Israel will remain in their Communities, and fully intend to expand and develop these Communities. The Sovereign People of Israel will accomplish this with the aid of Jews from all over the world and also with the assistance of gentiles who love the people of God...and in the name of G-d we will act and we will succeed.
